

# OUR YOUTHS' FIRST STEP TO WELLNESS.

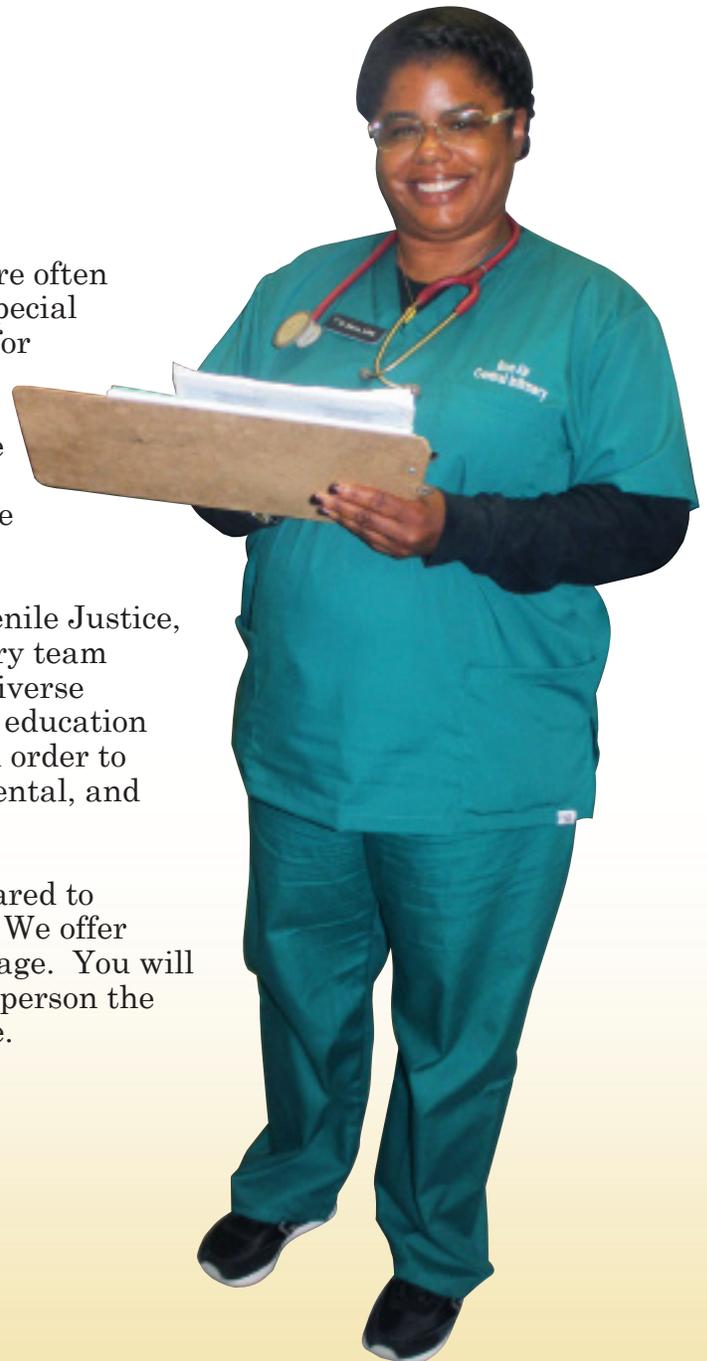

## BE A DJJ NURSE

When youth arrive from the community, nurses are often among the first people they meet. We possess a special brand of care and compassion that prepare them for the rest of their journey at Bon Air Juvenile Correctional Center. Many adolescents come to us with chronic healthcare conditions that require treatment and significant patient education. Some residents need basic medical and dental care with supplemental services.

As a correctional nurse in the Department of Juvenile Justice, you will be a valued member of an interdisciplinary team presented with diverse health conditions from a diverse population. Your duty will be to provide care and education to Virginia's most at-risk adolescent population in order to prepare them to take care of their own medical, dental, and mental health needs for the rest of their lives.

If you are a Licensed Practical Nurse who is prepared to make a positive impact, it's time to join our team. We offer competitive salaries and a generous benefits package. You will know at the end of the day that you gave a young person the greatest chance to succeed and hope for the future.
